

Friday 15th February 2019

Dear Families,

After half term, the builders will be starting work on the staff car park. They will be working on this area for 4 weeks, and will cause minor disruption to our normal routines at drop-off and pick up times.

The below picture shows where parents currently stand/access the portacabin at pick-up and drop-off times. The grey area on the picture shows where the builders will be after half term.

From Monday 25th February, please can I ask parents to drop off/pick up Y2 pupils from the area directly in front of the classrooms (shown above by the green arrow). It will be a tight squeeze for a short amount of time. The children will be called from the classroom and released to parents by staff as soon as they can see you. Please keep the ramp clear, giving children and staff room to exit safely.

There may come a time during this part of the works when access to the portacabins from the carpark will not be available, which will affect all parents using this access. In this instance, the school will provide parents with alternative access through the school grounds. Further information will come out about this closer to the time.

Thank you in advance for your continued support during our exciting project of building improvements to the school.

If you have any questions about where to collect your child, please speak to your child's class teacher.

Yours sincerely,

Claire Stringer
Headteacher
